

NMP Parent & Teacher Checklist

National Mathematics Program (NMP) • MATATAG Curriculum • What it is, who joins, schedules, and home tips

Done	Checklist Item	Details
■	NMP = National Mathematics Program	Extra math support under the National Learning Recovery Program (DO 013, s. 2023) — not a subject, no separate grade
■	Who joins	Focus on Grades 1–3 (Key Stage 1); weekly NMP periods in Grades 4–6
■	RMA pre-assessment	Rapid Mathematics Assessment finds which math skills need work
■	Intervention block (Grades 1–3)	5 weeks × 3 days/week (Tue–Thu) × 90 min = 15 sessions, 1,350 minutes
■	Weekly mode (Grades 4–6)	30 minutes × 4 days/week = 120 minutes per week
■	RMA post-assessment	Given after the block to measure real progress
■	NMP vs NRP	NMP = math/numeracy; NRP = reading/literacy — both under the NLRP
■	Home tip: count real things	Groceries, fare change, fruit — everyday counting beats worksheets
■	Home tip: ask "how did you get that?"	Children catch their own mistakes when they explain their thinking
■	Home tip: 10 minutes daily	Short daily math play beats one long forced session per week
■	Ask the teacher	Which specific skill did the RMA flag? (e.g. subtraction with regrouping)
